MARINE  
DEODORIZING TREATMENT

Safe, Biodegradable,  
Environmentally Beneficial,  
and Ultra Concentrated!

## Eliminate stubborn odors

*RYDLYME Marine Deodorizing Treatment* is our 100% natural and safe Deodorizing Treatment (*DT*) product designed to deodorize a multitude of surfaces and systems on board all vessels. From heads, holding tanks, galleys, right down to the bilge, *DT* deodorizes by utilizing its innovative non-active biocatalyst based formula.

### How does this *Deodorizing Treatment* differ from the rest?

*RYDLYME Marine DT* contains NO enzymes, just a complex mixture of nutrients, vitamins and trace elements that act as an energy drink to benefit the already present microorganisms. *DT* enables the microorganisms to supercharge their metabolic process and naturally rid surfaces and tanks of odors, disease-causing bacteria, and other contaminants at the source.

### Key features:

- Ultra concentrated solution can be diluted up to 1 ounce per 50 gallons!
- Remove odors in locations such as bilge, heads & holding tank systems.
- 100% Natural and biodegradable - no harsh chemicals i.e. formaldehyde!
- Reduce sludge volume and the frequency of holding tank pump-outs!
- Truly odorless solution - no obnoxious masking agents or essential oils!
- Discard solution down drains and heads to reduce clogs and odors throughout!
- Dilutions for Holding Tank: 1 oz : 50 gallons; Bilge: 1oz : 1 gallon; Spray Bottle: 1oz : 16 oz.

*RYDLYME Marine DT* breaks down grease and oily residues. This deodorizing treatment is hypoallergenic and completely safe to handle. In fact, *DT* is not only biodegradable, but actually environmentally BENEFICIAL and enhances the quality of discharge water allowing for easy disposal to on-shore sewers.

Contaminated bilges and tanks can be easily cleaned by pouring *RYDLYME Marine DT* down any drain or directly to problematic area. This will prevent new odors from forming and keep drain lines clean. *DT* Can be used with a variety of different cleaning equipment.

Safe.

Biodegradable.

Effective.

### DEODORIZING TREATMENT

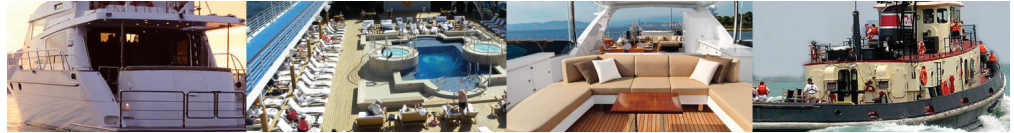

Safe, Biodegradable,  
Environmentally Beneficial,  
and Ultra Concentrated!

#### DIRECTIONS FOR USE

General handheld spray cleaning and deodorizing (use 1 oz per 16 oz of water); No need to rinse.

For use in holding tanks, dilute 1oz of Deodorizing Treatment into 12oz of water and pour into effected area. Repeat for every 50 gallons of capacity.

For additional applications, contact **RYDLYME Marine** technical support at 800.451.6291 (toll free) or 630.820.8888.

  - Mega Yachts
  - Patrol Boats
  - Pump Boats
- Racing Yachts
  - Sailboats
  - Supply Boats
  - Tankers
  - Tour Boats
  - Trawlers
  - Tug Boats

#### USE ON MULTIPLE APPLICATIONS!

- Ballast Tanks
  - Bilges
  - Cabins
  - Carpets
  - Chain Lockers
  - Counters
  - Curtains
  - Drains
- Dock Boxes
  - Engine Rooms
  - Floors
  - Foul Weather Gear
  - Galleys
  - Garbage Bins
  - Grey/Black Water Systems
- Heads
  - Holding Tanks
  - Lazarettes
  - Live Wells
  - Railings
  - Sails
  - Smoking Areas
  - Workout Facilities

#### SAFE ON EVERYTHING!

- Aluminum
  - Carbon Fiber
  - Ceramic
  - Fabric
  - Fiberglass
  - Glass
- Gelcoat
  - Linoleum
  - Marble
  - Metal
  - Neoprene
  - Nylon
- Plastic
  - Polyester
  - Rubber
  - Stainless Steel
  - Tile
  - Wood

AVAILABLE IN 1 GALLON JUGS, 4X1 GALLON CASES, 5 GALLON PAILS, 30 GALLON DRUMS; LARGER SIZES ARE ALSO AVAILABLE!
